Autoignition temperature: Not available

Flammable/Explosive limits-lower %: Not available

Flammable/Explosive limits-upper %: Not available

Extinguishing media

Suitable extinguishing media: Foam, dry chemical, or carbon dioxide CO₂

Special Fire Fighting Procedures:

Wear self-contained breathing apparatus and full protective clothing, such as turn-out gear.

Unusual fire or explosion hazards:

Uncontrolled polymerization may occur at high temperatures resulting in explosions or rupture of storage containers.

Hazardous Combustion Products:

Oxides of carbon. Oxides of nitrogen. Irritating organic vapors. Toxic fumes.

Section 6 - Accidental release measures

Personal precautions, protective equipment and emergency procedures

Environmental Precautions:

Remove sources of ignition. Prevent product from entering drains or open waters.

Methods and materials for containment and cleaning up

Clean-up methods:

Refer to Section 8 “Exposure Controls / Personal Protection” prior to clean up. Soak up with inert absorbent. Store in a partly filled, closed container until disposal.

Section 7 - Handling and storage

Precautions for safe handling

Handling:

Prevent contact with eyes, skin and clothing. Do not breathe vapor and mist. Wash thoroughly after handling. DO NOT heat or spray. Use only with adequate ventilation. Refer to Section 8. Use only in area provided with appropriate exhaust ventilation.

Conditions for Safe Storage, Including any Incompatibilities

Storage:

For safe storage, store at or below 26°C (80°F). Keep in a cool, well ventilated area away from heat, sparks and open flame. Keep container tightly closed until ready for use.

Incompatible products: Refer to Section 10.

Section 8 - Exposure controls/personal protection

Engineering Controls:

Local exhaust ventilation is recommended when general ventilation is not sufficient to control airborne contamination below occupational exposure limits.

Personnel Protective Equipment (PPE)

Respiratory Protection:

Use OSHA approved respirator if there is potential to exceed exposure limit(s). If this material is handled at elevated temperatures or under mist forming conditions, without engineering controls, an OSHA approved respirator must be used.

Skin Protection:

Use impermeable gloves and protective clothing as necessary to prevent skin contact. Neoprene gloves.

Eye/Face Protection:

Safety goggles or safety glasses with side shields. In a splash hazard environment, chemical goggles should be used in combination with a full face shield.
